| | Sem-2 | | 53640 | | 55926 | | 928 | | 774 | 118101 |

COMMENTAIRE : avec le début de l'été et le retour d'un temps bien ensoleillé, les moisissures sont à la baisse par rapport à la semaine dernière.
 Ce sont toujours les ascospores et les cladosporium qui sont en tête du classement suivis par les didymella et basidiospores.
