	Sem-2		6497		2431		448		21	9808

**COMMENTAIRE :** Les ascospores et cladosporium sont en tête du classement des spores de moisissures.

**Attention aux spores d'alternaria qui sont très allergisantes et bien présents dans l'air.**

**Les concentrations de spores de moisissures sont en hausse cette semaine par rapport à la semaine dernière à Toulouse, Nice et Bordeaux.**

**Les journées plus humides favoriseront l'émission des spores de moisissures.**
