	Sem-2		47051		15900		439		408	67188

COMMENTAIRE : Les spores de moisissures sont en augmentation dans l'air lors des journées plus humides et orageuses.
 Les ascospores et cladosporium sont en tête du classement des moisissures de la semaine.
 Attention aux spores d'alternaria qui sont très allergisantes et bien présentes dans l'air dans plusieurs villes.
 Bon courage à tous les allergiques aux spores de moisissures.
